## **II. OPTION**

### **1. Subject of the option**

- 1.1 On 22 June 2021, the insolvency administrator of SolarWorld Aktiengesellschaft i.L. signed an agreement to sell the 50 % stake in Deutsche Lithium GmbH to Zinnwald Lithium PLC. Among other things, 49,999,996 new shares of Zinnwald Lithium PLC from a capital increase ("**Zinnwald Shares**") were agreed as consideration. The Zinnwald Shares are to be used to satisfy secured creditors. 9,201,255 of these Zinnwald Shares are attributable to the SolarWorld Bond 2014/2019-1. They were transferred to the responsible Joint Representative on a transitional basis.
- 1.2 The Zinnwald Shares attributable to the SolarWorld Bond 2014/2019-1 are formally already included in trading on the Alternative Investment Market (AIM) of the London Stock Exchange, but are currently still evidenced by physical certificates and not yet booked in the CREST settlement system. This is to be changed at the latest with the

transfer of the Zinnwald Shares attributable to the SolarWorld Bond 2014/2019-1 offered herewith to the acquirers, so that they receive shares held in collective custody and tradable in the stock exchange segment AIM.

## 2. Eligible for purchase

- 2.1 The creditors of the SolarWorld Bond 2014/2019-1 have resolved in the vote without a meeting from 9 to 13 September 2021 convened by publication in the Federal Gazette (*Bundesanzeiger*) of 18 August 2021 that the Joint Representative shall offer the total of 9,201,255 Zinnwald Shares transferred to him by the insolvency administrator of SolarWorld AG to those Bondholders who prove to him that either
- a) in the event of a complete distribution of all Zinnwald Shares attributable to the SolarWorld Bond 2014/2019-1 to the Bondholders, the whole Zinnwald Shares to which they are entitled in proportion to their respective participation in the total nominal amount of the outstanding bonds ("**Zinnwald Shares per Investor**") have a value of at least EUR 100,000.00, or
  - b) they are qualified investors pursuant to Sec. 2 of the German Securities Prospectus Act (*Wertpapierprospektgesetz - WpPG*).
- 2.2 For the valuation of the Zinnwald Shares in connection with the determination of the Acquisition Entitlement, the volume-weighted average price of the already traded Zinnwald Shares on AIM of the last ten trading days prior to 15 October 2021 ("**Record Date**") (exclusively) according to Bloomberg shall be relevant, converted into Euro with the exchange rate on the Record Date. This exchange rate on 15 October 2021 was: GBP 0.84368 as published by the European Central Bank ([https://www.ecb.europa.eu/stats/policy\\_and\\_exchange\\_rates/euro\\_reference\\_exchange\\_rates/html/index.en.html](https://www.ecb.europa.eu/stats/policy_and_exchange_rates/euro_reference_exchange_rates/html/index.en.html)). The aforementioned average price is GBP 0.195441, converted into EUR 0.231653.

## 3. Scope of the right to purchase

- 3.1 Since a total of 9,201,255 Zinnwald Shares are to be distributed and the SolarWorld Bond 2014/2019-1 is divided into 139,386 partial bearer bonds, each Bondholder entitled to purchase will be offered  $9,201,255 : 139,386 = 66.01276311824717$  or rounded down

66 Zinnwald Shares for one partial bearer bond.

- 3.2 If a Bondholder holds several bonds, the number of shares to which he is entitled is first added together and then rounded down, e.g. in the case of 115 bonds  $115 \times 66.01276311824717 = 7,591.46775859842$  or rounded down 7,591 Zinnwald Shares (and not  $115 \times 66 = 7,590$ ).

#### **4. Minimum or maximum amounts for the exercise of the option**

- 4.1 Bondholders entitled to purchase pursuant to Sec. 2.1b), i.e. qualified investors, may exercise the option in accordance with and limited to the scope of their purchase entitlement pursuant to Sec. 3 any amount, generally starting with 66 Zinnwald Shares.
- 4.2 Bondholders entitled to purchase pursuant to Sec. 2.1a) must accept the Option for Zinnwald Shares with a value of at least EUR 100,000.00. The calculation of the value is based on the information in Sec. 2.2. The calculation of the value is based on the information in Sec. 2.2. Specifically, this means that an investor must hold at least 6,540 partial bearer bonds and exercise the purchase right for these in order to be entitled to delivery of shares with a value of at least EUR 100,000.00, namely 431,681 shares. Apart from that, there are no minimum amounts for the acceptance of the offer.
- 4.3 The Offer may be accepted at most to the extent of the "Zinnwald Shares per Investor" (rounded down to whole shares) attributable to the respective acquirer.
- 4.4 Only whole Zinnwald Shares are transferred, not fractional shares. Zinnwald Shares not acquired due to this fraction provision will be sold by the Joint Representative - together with the Zinnwald Shares attributable to the SolarWorld Bond 2014/2019-1 for which the Option is not exercised or cannot be exercised due to a lack of acquisition entitlement - at the best possible market price and the proceeds will then be distributed to the corresponding Bondholders.
